North Dakota Red Angus Association Red Select Sale

Greetings!

On behalf of the North Dakota Red Angus Association, we would like to welcome you to the North Dakota Red Select Sale. This sale brings some of the top breeders in not just North Dakota but across the country together where the lots are hand-picked and offered for sale. You also have the opportunity to purchase and work with some of the greatest people in the breed. Jeff Thomas has put an outstanding group of cattle together for us. Buy with confidence in this sale. With record-setting prices in the cattle industry across the board, there has never been more optimism in the industry and the Red Angus breed.

We would love to have you join us for not only for the sale but also for our banquet Friday night as well. This is a great time to meet and visit with fellow breeders. I would also like to thank Tracey Koester and Kacey Jacobson from Cow Camp Promotions for putting up with all us consigners and putting together an outstanding catalog.

Please join us for a fun-filled weekend Dec. 8-9. Hope to see you there!

Samuel Twedt

Greetings;

On behalf of myself and the consignors I would like to welcome you to the 2023 North Dakota Red Angus Association Red Select Sale! It has been a pleasure to be involved with the development of this year's sale. The members of this association are seriously committed to offer you cattle and genetics from the top of their programs. The programs presenting this offering host some of the top production and bull sales in the land so take advantage of them sharing the base of their program with you.

Again, this year the N.D. Red Angus Association and the N.D. Simmental Association are working together in sharing the date and facilities to present both sales on the same day. This has been a very impressive venue with an overflow crowd for both events; which supports the testament of how well the two breeds of cattle and breeders can work together!

The current market trends are very positive with calf prices stronger than last year the outlook for the future is very promising. The demand for Red Angus cattle both as breeding stock and feeder cattle is tremendously strong! The offering of this sale provides you as buyers the opportunity to secure value-adding genetics that can advance your program significantly for the future.

If you are looking for females and genetics that can produce top end individuals for both the commercial and seedstock industries, this offering provides a lot of opportunities for you. The open heifers in the offering have some outstanding show heifer prospects for Junior programs and the N.D. Red Angus provides an excellent opportunity for our youth with their State Fair Futurity program. These open heifers are out of top end females and ET programs and will develop into great cows as well.

The sale will be broadcast on DV Auction for those that may want to bid online. We will make available any updates and additional info on the N.D. Red Angus Website: ndredangus.com. There will also be videos of many of the lots available on many of the individual consignor sites as well.

I would like to thank the N.D. Red Angus Association and the consignors for the opportunity to work with them on what has become a premier event in the region! If you have any questions regarding the offering don't hesitate to give a call or send a note and feel free to contact any of the consignors regarding their individual consignments. I look forward to seeing many of you in Bismarck/Mandan on Dec. 8 and 9, 2023!

Sincerely,
Jeff Thomas

It's our honor to supply the donation heifer for the sale this year. When choosing the heifer to donate, we picked an offering with an outcross pedigree that had strong ties back to our RLC herd that would allow the lucky ticket holder a chance to go in any breeding direction. RLC Juniper 223L is a moderately

made, boldly sprung heifer who is feminine fronted. She combines her great phenotype with proven cow lines at RLC on top and bottom. She has proven cow makers as her sire and maternal grandsires. She will mature into one heck of a cow.

2a **PICK OF TWEET RED ANGUS
2023 OPEN REPLACEMENT HEIFERS**

Consigned by Twedt Red Angus

We are offering the opportunity to pick one heifer from the entire group of 80 open replacement heifers. Sires of the heifer calves in the offering include, TAC Drifter, RREDS Blue Print, U2 Township, STRA Admiral, Bieber Driven and many others. There will also be many ET heifer calves of out of some of our top donors such as: U2 Rainbow 417C, U2 Lakota 54B, Bieber Primrose 107W and STRA Tina 662. The pick must be completed by February 15, 2024. We would love to visit with anyone interested and will provide any information available. This is something we have never offered before and might possibly never offer again.

2b **PICK OF TWEET RED ANGUS HERD FLUSH**

Consigned by Twedt Red Angus

We are offering the opportunity to flush any cow in our program. Some of the highlight cows available to flush would be STRA Cherabel 305 (the dam to STRA RELENTLESS who was purchased by ST Genetics), STRA TINA 662 (the dam to our 2023 high selling bull to Select Sires, STRA Sargent and the dam to STRA The Legend 022 who was purchased by Cutting Edge Ranch), U2 Rainbow 417c (who we purchased from the U2 dispersion for \$24,000 and is leaving a major impact on our program), STRA Primrose 8108 (Dam of STRA Driven 1158 who sold to HanSine Ranch in 2022), also many daughters of the great Bieber Laura 158W and Bieber Primrose 107W. Many other cows that will be available. Come tour the herd and take a look! Timing of the flush will be arranged after the sale depending on if the cow chosen is bred or not. Any cow that is bred will be flushed 60 days after she calves. The buyer is guaranteed 7 embryos with an open top. Buyer pays all flushing expenses.

Selling 3 frozen embryos (conventional). The Berwald family is offering this unique package of embryos out of their signature donor cow, Abigrace 0018, and sired by the \$180,000 KJL/CLZB Complete 7000E. This is the first time they have ever sold embryos out of this breed impact matron. Abigrace 0018 is the Quarterback daughter out of 9 Mile Franchise 6305's full sister, and her two full sisters are top donors at HanSine Ranch in SD and Pieper Red Angus in NE, including the dam of the record-setting \$400,000 PIE Hollywood 222. 0018 is one of the most stunning females you will find in the breed, and that is just the half of it ... her first progeny generated over \$170,000 in revenue this spring alone! Her sons sold into some of the most prominent herds in country, including Twedt Red Angus in ND, Barentsen-Bullinger Red Angus in ND, Sandhill Red Angus in MT, Glienke Red Angus in IA, Griffin Red Angus in IA, Pleasant View Farms in CT, and Weese Red Angus in MN. The Berwald's sold a full sister to the embryos in their spring sale to L.G. Herndon, Jr. Farms Inc. in GA, and Austin's favorite replacement heifer is also a full sister.

STRA Laura 718 was the 2019 ND Red Select Sale top selling bred heifer. 718 is considered the top daughter of Bieber Laura 158W who is also dam of Hard Drive, Gladiator, Deep End, etc. A 718 daughter (BJR Laura 105J) scanned a 9.58 marbling and is one of the tops of the breed at 1.35 Marbling EPD. 718 has hit homeruns on mating's such as Stockmarket, Captain, Ener-gize, Complete, etc. Berwald Confident 2044 is the \$90,000 Confidence Plus grandson out of the famed Jaylo/Joline cow family – his dam has earned a 109 MPPA! His full sister sold for \$85,000. Confidence Plus remains an influ-ence in the Angus Breed with a daughter selling for \$650,000 at Express and \$240,000 for half at EZ in the past 2 years. Selling 3 conventional embryos stored at Genex Billings with guarantee of 1 90-day pregnancy.

BJR Della 101J is the only Relentless daughter of famed TBJR Della 502 who topped Denver Sale as the 2020 Pick of the BJR Donors to a syndicated group of 4 impact breeders and recently resold for \$44,000. 101J's maternal brother LSF BJR High Voltage 1803J was syndicated for \$120,000. 101J has earned a 118 MPPA with a great natural heifer and a tremendous set of ET calves proving her top 1-10% EPDs for ProS, HB, GM, WW, YW, ADG, Milk, HPG, CEM, MARB, CW, and REA!! PIE Captain 057 is the \$150,000 son of the popular PIE Quarterback. Captain daughters should have some of the best udders as QB & Franchise are known for. BJR has a nice set of Captain calves on the ground that are showing potential of herd bulls and donors. Selling 3 conventional embryos stored at Genex Billings with guarantee of 1 90-day pregnancy.

Selling 4 frozen #1 grade conventional embryos stored at Hawkeye West in Billings, MT. Guarantee two 90-day pregnancies if implanted by a certified technician. Vidalia 24Y could be the prettiest and most prolific daughter of the old king-of-the-world sire, Mulberry 26P that has ever walked the planet! She is a typical Mulberry female with a gorgeous udder and oh so feminine head and front end. She can raise 'em too! A couple sons just sold in our 52nd annual bull sale for \$14,000 and \$13,000. She's a coming 14yo. and hasn't missed a step at all – still flushes very well and is currently being set up again for her 28th flush!! The two sires that we have available in combination with 24Y are two of Brylor's good ones!

Lot 6A is from our new-and-rising young gun called Copenhagen 9K. He is an ET son of the old U2 sire, Minburn Copenhagen, and our top cow at OTM and Brylor called Reba 49D. Anyone who paid attention at the breed's most historic sale in Canada back in 2019 for U2 that day knows just how well the Copenhagen daughters were valued at!! 9K himself was the high-selling bull calf at the mighty RRUP sale 50th Golden Event

last fall. He sold for \$26,000 for a 1/3 share to Jeff Fraser and family in Manitoba. I've stated many times this fall to breeders that this Copenhagen 9K bull was one of my absolute top picks in all of Canada of all the bulls that sold last bull sale season. No BS ... he's that good!

Pkg B is from the old guard at Brylor called Assassin 624D. He was a former high-seller at Cockburn's in Saskatchewan at \$77,500. He has done incredible things for us and by all who acquired a few straws released from him. He recently blew the doors off in the Wraz dispersal last fall as his daughters were the crowd favorites by far (and the banker's!!). He himself at 7yo. topped the sale that day for Phil Birnie at \$23,000. A full sister to this mating was a feature lot in our Brylor Ranch TWAV sale in 2020 at \$10,000 for a half interest.

As a side note, BOTH of these bulls could be made available to the semen donation "Choice of the Tank" lot that we are offering at this year's fundraising banquet on Dec. 8.

Selling one pregnant recipient, our 6000 cow, with confirmed bull calf due to calve March 4, 2024. **RED SIX MILE MOSSY OAK 175H** is a full brother to the 2023 Champion Pen of Bulls at the National Western Show in Denver exhibited by Six Mile Ranch. Mossy Oak is owned by Semex, Six Mile Red Angus and Daren Ippolito. The Marta 238C cow has a progeny record second to one and is the donor cow of Cutler Cattle Co., which Lucas is building a cow herd around. Marta 238C is one of the breeds elite females backed with a milk EPD of 37!

Wow, what an opportunity to purchase embryos from the dam of the high selling bull purchased by ST Genetics, Dahlke Rancher 214K, and the high selling bull at the U2Q sale, RED U2Q Playboy 2197K. The dam, 23F, is an angular made, perfect uddered female, that is extended through her front one-third and stands down on an excellent designed hoof. She kicked out a large number of eggs this spring and we have 8 confirmed pregnancies from this mating we are excited to arrive next spring. A video of this cow will soon be available to view on the ST Genetics website. Package of 3 embryos with a guarantee of 1 pregnancy if transferred by a certified technician.

1448 is one of the most exciting, visually stunning females I acquired from Berwald Red Angus as a bred heifer and soon began her swift journey to the Donor Pen. I will never forget when I locked my eyes on her. A personal favorite, she takes femininity, udder quality, productivity, and style to the next level. Her mother, C-Bar-RJ Abigrace 684D needs no introduction here, a cow that has highlighted this sale many times in the past. With Hard Drive Y120 bringing in the Laura cow family, these embryos will bring an outstanding set of balanced EPDs with a beautiful look. Selling a package of 3 RSF embryos. Guarantee of one pregnancy if transferred by a certified technician.

fault. The most impressive feature is her leg structure and feet. Her sire, BB Renaissance 8067, is going to be 6 years old in 2024 and has perfect feet and a disposition second to none. She will be an amazing cow and could easily fit in someone's donor pen.

Pasture exposed from 6/1/23 - 7/31/23 to WSM Seneca 2057K (#4626861). Confirmed for a 3/24/24 calf.

Lot 16

A Shoco Data bred heifer is a rarity. Very few if any Data daughters will be offered this sale season. She is moderate framed, easy fleshing and should make a highly productive brood cow. The full siblings to 56K were well received in our bull sale this spring. Her extremely productive dam, 7234, originated from the Barenthsen herd. A cow that would always produce a productive calf as her 114 MPPA demonstrates. This

Here's a great, easy-fleshing bred heifer that we feel will go out and make a great cow just like her dam and follow her footsteps. Her dam has a MPPA of 107! It's hard to find heifers for sale that have the cow family and production record that this cow family has!. This 5L Blockade bred is the kind you build

a herd around and she's AI bred to Leechman Above Heaven – you not find many heifer bred this way!

Bred to LCHMAN.ABOVEHEAVEN1018F (#532739) on 5/7/23. Confirmed for a 2/12/24 calf.

RED ANGUS GUIDE TO EPDS

RedAngus.org

ProS..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CE..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB.... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

Lot 24

The Berwald's have established quite a standard at the ND Red Select sale the past few years, bring us the top selling female three years in a row! Well they obviously would like to keep the streak going bringing us a heifer like Ms Pride 3135! This genetic gem is super deep sided, thick ended, and has that beautiful wedge shape we all like to see in our females. Her dam, Miss Pride 110J, made the top cut at Berwald's as a yearling and was IVF flushed to produce this beautiful heifer before she was sold to RE Jacobson Red Angus in MN. She is sired by the powerful PIE Fullback 7005 bull that was the dominant

Lot 25

This dark red cherry bomb is elegantly made, with a cookie-cutter phenotype and perfectly shaped, dark hooves. She stacks some of the most powerful genetics the breed has to offer, including a shot of outcross from North of the border. Her dam, Taffeta 94J, was a neat little genetic gem Austin and Seth found and purchased from the Rainbow Red Angus program up in Canada back in '21. She is a moderate, deep ribbed Six Mile Stealth daughter out of the famed Ms Taffeta 142B cow that produced numerous top herdsires for Six Mile, and she was their featured Lot 1 female in their sale just last

Here is your chance to add a heifer to your lineup that it bound to rise to your top. she is a powerful heifer with incredible depth of body, rib shape and she's got "brood cow" written all over her. Bringing the best of the Marta and Primrose cow lines together, these heifers are set to exceed expectations. Retaining the right to one flush at buyer's convenience for 6 grade 1 embryos.

Catalog online at ndredangus.org

Lot 27

Here is the first opportunity to purchase a direct daughter of the famed Six Mile Marta 238C, and what an opportunity it is! Marta 238C is a household name in Canada and the USA known for producing powerful bulls with a classic Angus character, and females that are highly sought after for their productivity, structure and maternal ability. 661L and 12L are no different, be-

U2Q Playboy 2197K is a RED U2 KNOCKIN' BOOTS 368G son that is as unique and correct of a herd bull as we have seen in some time and he knows it. This high selling phenom grabs your attention from any angle. He is a benefit-the-breed type with his clean design, expansive muscle shape, excellent let, structure and movement, while blended with his arrogant, cocky character is simply electrifying. His soundness is solidified by his ample amount of heel and big, strong, square foot, making him a definite foot improver. With two front pasture Queen donor dams behind him on the bottom side and Beauty 113Z on the top side, look for Playboy daughters to make major future waves for a long time. Owned by Kalkota Red Angus, Steve Lapp, Jim Cravens and Lucas Cutler.

Bieber Driven C540 was Twedt Red Angus' pick of the bulls at Bieber's sale in 2016. With Hard Drive semen no longer on the market we wanted a son that we felt was good enough to replace him and we feel driven is! He is deep ribbed, thick and with a phenotype to go with it! Owned by Twedt Red Angus and Bieber Red Angus.

Potency is a Red Blood son that was purchased from Duff Cattle Company. Perhaps one of the most complete well rounded bulls to ever be added to the Blom program. 2122 is the kind that will do his job with his soundness and muscle mass and fuel tank (rib shape). 2122 has an edge all of his own genetically with OCC Juanada 927K on both sides of his pedigree. His dam is a Mann Red Box 55C daughter with a great udder and an outstanding overall design. The combination being a line bred outcross with the maternal strength is very exciting and he will change the game of your next calf crop. His pedigree is loaded with the best of Red and Black Angus genetics. Owned with Blom Red Angus and Power Plus Genetics.

63 NIO START UP 1294

Consigned by DK Red Angus

www.ndredangus.org

Simply fill out your sale dates and information on the membership form, and the NDRAA will list it for free on its website and in its ads in the the North Dakota Stockman and Red Angus Magazine.

PARAMOUNT

Elevate to a more valuable female.

For over a decade, Red Angus females have commanded more at auction than all other breeds, including Angus. According to Superior Livestock data, Red Angus heifers brought nearly \$17/cwt more – **that equates to a \$92/head premium on a weaned replacement female.**
