# *North Dakota Red Angus Association Red Select Sale*

Welcome,

I would personally like to invite you to the NDRA Red Select Sale. This year is an extra special year for us as an association as we celebrate 60 years. This year, as an association, we have tried to make this weekend extra special and would love for you all to join us not only for our sale but also for our banquet Friday night.

The Red Select Sale has grown in reputation as one of the elite sales in the country for Red Angus cattle. We have raised the bar even higher for the 60th anniversary. Jeff Thomas has done an outstanding job selecting these cattle for the sale, and we appreciate all his work in making this sale come together. Truly, there is something for everyone in this offering. We would also like to thank Tracey Koester and Kacey Jacobson of Cow Camp Promotions for their work putting this awesome catalog together.

We hope to see you Dec. 13 and 14 in Bismarck/Mandan as we celebrate our 60th anniversary!

Thanks, Sam Twedt

Greetings,

On behalf of myself and the consignors, I would like to welcome you to the 2024 North Dakota Red Angus Association Red Select Sale! It has been a pleasure to be involved with the development of this year's sale. The members of this association are seriously committed to offering you cattle and genetics from the top of their programs. The programs presenting this offering host some of the top production and bull sales in the land, so take advantage of them sharing the base of their program with you.

Again this year, the N.D. Red Angus Association and the N.D. Simmental Association are working together, sharing the date and facilities to present both sales on the same day. This has been a very impressive venue with an overflow crowd for both events, which supports the testament of how well the two breeds of cattle and breeders can work together!

The current market trends are very positive, with calf prices stronger than last year. The outlook for the future is very promising. The demand for Red Angus cattle—both as breeding stock and feeder cattle—is tremendously strong! The offering of this sale provides you, as buyers, the opportunity to secure value-adding genetics that can advance your program significantly for the future.

If you are looking for females and genetics that can produce top-end individuals for both the commercial and seedstock industries, this offering provides a lot of opportunities for you. The open heifers in the offering include some outstanding show heifer prospects for junior programs, and the N.D. Red Angus Association provides an excellent opportunity for our youth with their Grant and Incentive Program offerings. These open heifers are out of top-end females and ET programs and will develop into great cows as well.

The sale will be broadcast on DVAuction for those who may want to bid online. We will make available any updates and additional information on the N.D. Red Angus website: [ndredangus.org](http://ndredangus.org). There will also be videos of many of the lots available on individual consignor sites.

I would like to thank the N.D. Red Angus Association and the consignors for the opportunity to work with them on what has become a premier event in the region! If you have any questions regarding the offering, don't hesitate to call or send a note, and feel free to contact any of the consignors regarding their individual consignments. I look forward to seeing many of you in Bismarck/Mandan on Dec. 13 and 14, 2024!

Sincerely, Jeff Thomas

# North Dakota Red Angus Association Red Select Sale

**Saturday, December 14, 2024**

11 a.m. CST • Kist Livestock Auction • Mandan, ND

## SALE LOCATION

Kist Livestock Auction Co.....Mandan, N.D.  
1715 40th Ave SE • PO Box 1313 • Mandan, ND 58554 (On the Strip)

## DONATION HEIFER

Tickets will be auctioned off at the NDRAA Annual Banquet. The first purchaser of the first ticket package auctioned off at the banquet will receive an additional 10 free tickets. The second purchaser of the second ticket package auctioned off at the banquet will receive an additional 10 free tickets. NDJRAA members present at the annual banquet will put their names in for a drawing of five free tickets. At the beginning of the auction, tickets will be auctioned off in large packages at \$10 per ticket. A computer randomizer will draw a ticket and the winning ticket holder will be awarded possession of the donation heifer.

## ND JUNIOR RED ANGUS

The NDJRAA will have a work meeting at 3 p.m. on Friday, Dec. 13, in the banquet hall and a meeting Saturday, Dec. 14 at 9 a.m. in the stands at Kist Livestock. The juniors will facilitate a silent auction fundraiser during the evening's activities and up until the start of the sale on Saturday. They will also have a semen donation auction. See page 30 for more details. NDJRAA dues of \$35 will be collected throughout the weekend.

## NDRAA MEMBERSHIP AND ADVERTISING

The NDRAA will be collecting annual dues of \$100 during the weekend. The 2024 membership deadline is Dec. 31, 2024. NDRAA members are also able to participate in the NDRAA Pro-Rated Advertising. Details available at the meeting.

## NDJRA GRANT AND INCENTIVE PROGRAM

Please see page 36 for more junior information or visit [ndredangus.org](http://ndredangus.org) for full details and applications.

# Red Angus Guide to EPDS and Indexes

**ProS...** Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

**HB .....** HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

**GM.....** GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

**CED .....** Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

**BW .....** Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

**WW .....** Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

**YW .....** Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

**ADG .....** Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

**DMI .....** Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

**MILK .....** Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

**ME .....** Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

**HPG .....** Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

**CEM .....** Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

**STAY .....** Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

**MARB .....** Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

**YG .....** Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

**CW .....** Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

**REA .....** Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

**FAT .....** Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

**RED ANGUS**  
RANCH TESTED. RANCHER TRUSTED.

It's our honor to promote the NDRAA with our donation heifer this year! Forster Red Angus started the Donation Heifer program in 1993, over 30 years ago. Our idea was to get a fundraiser started for the NDRAA in hopes of growing the association. The Red Angus breed was not well known among commercial breeders at that time. There was not a lot of money back then, but if we could grow the association, it would bring more awareness to the commercial breeder. Through this journey, our forefathers made a lot of sacrifices to bring the Red Angus breed to the forefront. Thanks to them and other breeders along the way, we now have the attention of the commercial breeders! We would like to extend a personal thank you to all new breeders, along with our forefathers, for their perseverance and hard work in promoting the Red Angus breed. The donation heifer we are offering is long-spined, clean-fronted, and free-moving. The dam, Forster Copperqueen C113, is a consistent producer on eight natural calves. The sire, Forster Highlight 1093, will definitely catch your eye. We think she will make a great asset to any herd.

## Previous Donators for the NDRAA Donation Heifer:

combines some of the most sought-after genetics from both the Red and Black Angus gene pools, stacking Quarterback with SAV Territory and SAV Harvester. We are offering a guarantee of eight IVF embryos – up to twelve – and any additional embryos can be purchased at a pro-rated price. She is due to calve at the end of January and will be ready to flush. We are planning on breeding her back mid-June. For further questions, feel free to contact us anytime.

The decision to sell a flush in "Swank" Berwald Bonne Bel 3115 was not an easy one, but Lisa finally agreed to share this exceptional female. Consider this a once-in-a-lifetime opportunity to make your own breeding decisions with this powerhouse. Swank was the top-selling female in the Berwald 2024 sale, and she's well worth the investment. Great cow families produce great cattle, and Swank stacks two of the most prolific tribes in the breed with Abigrace and Bonne Bel. She

Selling three embryos with a guarantee of one pregnancy if implanted by a certified technician. This is one of the most exciting embryo packages to sell this year. The dam, Berwald Stony 2091, is a young Hard Drive daughter poised to make a big impact with her progeny, including Berwald's top open heifer, Stony 4032, featured in this sale as Lot 36. She also has several sons on test at Berwald's, including their standout bull calf from this past summer, Berwald Eight Ninety 4006 – watch for him in their 2025 spring sale! The sire, Berwald Destiny 3138, made waves across the breed when he topped their sale this spring, selling to Ressler Land & Cattle for \$135,000. Destiny combines the outcross genetics of Brown Confidence G1410 with the Rainbow Taffeta 94J dam, who also produced the \$57,000 high-selling female in the 2023 ND Red Select Sale to Kirwan Red Angus and C-Bar Ranch.

STRA Laura 718 was the top-selling bred heifer at the 2019 ND Red Select Sale and has proven to be a cornerstone donor in the Boot Jack program. She is considered the top daughter of Bieber Laura 158W, who is also the dam of the legendary Hard Drive, \$64,000 Gladiator, Deep End at Genex, and others. Laura 718 has produced numerous notable sons, including Glory Days and Power Grid, as well as elite daughters like BJR Laura 105J, who scanned a 9.58 marbling score and holds the top ranking as the No. 1 red 1A female in the database for marbling at 1.45. Other daughters include BJR Laura 302L by Complete, in the BJR donor program. A daughter by Relentless recently sold for \$10,500 at the Mississippi Fall Classic from a BJR embryo. Take note: these four embryos by the highly productive Berwald Completely 2056 are the only ones produced in that flush, giving the buyer complete control of this outstanding mating. Imagine the maternal possibilities with the Stony, Jolene, and Laura cow families combined in one pedigree! Selling four conventional embryos stored at Genex Billings with a guarantee of one 90-day pregnancy.

These are the first embryos offered by BJR Della 301L, a full sister to LSF BJR Velocity 3811L, who ranks in the top 2-4% of the database for \$Profit, \$Ranch, Intake, and Fertility. Their dam, BJR Della 103J, is a powerful daughter of TBJR Della 502, who was syndicated in 2020 by Lee Leachman, RA Brown, Schuster, and Mathews as the pick of the Boot Jack donors and later sold at 8 years old to JL Morris Farm and Pieper for \$44,000. Della 502 has produced many notable progeny for BJR, including the \$120,000 High Voltage, Della 101J, 102J, 202K, 204K, and 206K. This is an exciting mating to the \$90,000 Berwald Confident 2044, who combines the influence of Confidence Plus with the foundation Jolene/Jayle cow family through an exceptional Quarterback daughter. Confident's full sister is one of the most talked-about females in the breed! Selling three conventional embryos stored at Genex Billings with a guarantee of one 90-day pregnancy.

Selling a package of four frozen #1 grade embryos FOB Hawkeye West in Billings, MT, with a guarantee of 2 90-day pregnancy if implanted by a certified technician. This is an embryo package for the progressive and aggressive breeder looking to advance their program rapidly! Moon Pie, the incredible young sire, is no longer with us, which is a tremendous loss, with little to no semen available. His first calves have generated significant buzz for all who used him. Moon Pie was the \$95,000 high seller at the 2023 SSS bull sale, purchased by Rohrich and Cockburn. His calves have mass, power, and style – just like he did! Much of this comes from his unreal dam, 722G, a direct daughter of MRLA Resource 137E, rumored to be priced at \$100,000. A few of his remaining straws sold for \$1,000 each at the Billings NILE frozen sale. Get some of his influence while you can! The dam here, 24Y, is one of the most prolific and prettiest Mulberry daughters in the world. She has progeny in over 10 different countries, and her frozen lot sold last year in the ND Select Sale to Justin Long in Georgia.

**BIBER JUMPSTART J137**

Selling two packages of five IVF embryos each, with a guarantee of two pregnancies per package. The C-Bar program has been a source of some of the best Red Angus genetics in the breed, and its influence can be found in many of the top programs across the country. Stony 837F may be one of the most prolific cows in the nation, averaging over 150 oocytes and 50 viable embryos per IVF flush. Her progeny include the C-Bar Crackerjack 2037K herdsire at Ressler Land & Cattle, as well as the C-Bar Cromwell 257J herdsire at Sandridge Land & Cattle. Her daughters are currently working in seven registered programs, including the dam of one of Berwald's ND consignments, and she is the donor dam of Pleasant Valley Farm's Quarterback daughter selling this year. C-Bar is offering matings to Bieber Jumpstart J137, the breed's top-selling bull in 2022 to Twedt Red Angus and Select Sires, and to PIE Hollywood 222, the breed's record-setting \$400,000 high seller in 2023.

 DAHLKE MS. BYRDIE 212Z

Right off the top, these embryos come from our leading donor, Dahlke Ms Birdie 23F, the sleek, beautifully constructed dam of Dahlke Rancher 214K, an exciting young sire at ST Genetics. This is a cow you just want to show off to everyone who visits the ranch. Built from the ground up, 23F stands out for her foot and leg design, with a hard, well-designed foot that allows her to move with ease. ET daughters from U2Q Playboy are some of the favorites in the heifer pen, along with impressive sons that are expected to headline our sale in March. She flushes extremely well, which makes the decision to let some embryos go a little easier. Embryos are stored at Trans Ova and will ship from there. Sire choices include PIE Cadillac 3289 and Dahlke Rockefeller 009H. Selling five conventional embryos with a guarantee of two pregnancies if implanted by a certified embryologist.

Kirwan Red Angus is excited to offer a unique package of three Grade 1 IVF embryos from our signature donor, TKP Tilly 928, sired by the \$100,000 PIE Cadillac 3289. Tilly 928 is backed by the powerful Bieber Tilly 399W lineage, renowned for producing top-tier progeny at Pieper Red Angus. Bringing together breed-impacting females on both sides like TKP Bonnebell 110 at Berwald Red Angus. Tilly 928 embryos represent a rare opportunity, as this may be the only time embryos from this outstanding cow will be available. We own Tilly 928 in partnership with Pleasant View Farms in CT. After seeing her stunning Hollywood 222 daughter, now at PVF, Jake thought I was crazy to part with these genetics.

What an opportunity! We are offering embryos by the deceased sire TAC Drifter H10! Drifter was the hot sire group of 2024, with many sons going to prominent breeders across the country, including ABS Global, Genex, and Select Sires. Fertility is a major factor in this industry, and Drifter's semen speaks for itself. We purchased one straw of semen, which fertilized 39 Grade 1 embryos for us! These embryos come from a top-tier cow we purchased as an open heifer from Barenthsen-Bullinger Red Angus in 2019. BB Ms Venture 8066 has been outstanding for us, with a current MPPA of 110 and an average weaning ratio of 112 on five calves. Her first daughter is currently in our bred heifer pen, her second in our replacement pen, and both meet all the criteria we value in females. 8066 has excellent feet, strong udder suspension, ideal teat size, and produces high-quality offspring year after year. We are offering a package of five Grade 1 IVF embryos with a guarantee of two pregnancies if transferred by a certified technician. The embryos are stored at BovaGen in Britton, SD.

Selling choice of three or five embryos – these are some of the most exciting embryos we have ever offered. We've never offered any embryos from Tina 662 or Drifter, let alone from the two mated together. Drifter needs no introduction, given the impact he and his sons have made across the country. Tina 662 is one of the most beautiful and powerful cows to ever walk our ranch; she's a herd bull-raising machine. She has sold eight sons in our production sale with an average price of \$14,000, going to top producers such as Rohrich's Cutting Edge Ranch, Select Sires, Lazy J Bar, and many others. Her 2022 son, STRA Sargent, purchased by Select Sires, is as impressive a bull as you can find. These embryos have as much potential as anything we have ever sold. Drifter genetics are very limited – don't miss out. Selling choice of 3 or 5 conventional embryos with a guarantee of 1 or 2 pregnancies depending on which package is chosen, if implanted by a certified technician.

**12a CHOICE PICK OF THE FORSTER RED ANGUS  
2023-BORN BRED HEIFERS (BOTH 12A AND 12B SELL!)  
Consigned by FORSTER RED ANGUS**

We are offering this unique opportunity to choose a bred heifer for the first time since our female sale in 2000, along with a pick of the heifer calves born in 2024. We sold many flush-quality females in that 2000 sale, and there will be flush-quality females to choose from in this offering as well. Our herd has stood the test of time for over 50 years. We have a true breeding program where our females must prove themselves for generations to remain in our herd. We believe you can bid with the utmost confidence on these female offerings. We will provide any available information on your pick of the bred heifers and your pick of the heifer calves and are more than willing to assist you with your selections.

Bred to Bieber Energize for a mid-March heifer calf. Photos of the cow family are available.

*Bred to Bieber CL Energize F121 (#3958815) on 6/3/24. Confirmed for a 3/12/25 calf.*

Lot 17

DKK Impress 3002 boasts 12 EPDs in the top one-third of the breed, showcasing her genetic superiority. She's been refined over 10 continuous generations of AI breeding on the maternal side to ensure high maternal ability, low maintenance, and excellent carcass quality. With an 85 Birth Ratio rising to a 101 Weaning Ratio and a 109 Yearling Ratio, her performance underscores her strong genetic foundation. Exceptional structural balance and elegance make her a true asset to

Lot 18

This is a very functional, wedge-shaped female backed by one of the most potent donors in our Red Angus group. Her dam has been a consistent producer, raising a maternal sister who topped the 2022 Reds on the Prairie sale at \$9,750 and a maternal brother who was one of our top-selling Red Angus bulls in 2023, going to Tlach Red Angus in Iowa. Another maternal sister was

Lot 19

The first thing that comes to mind with this heifer and the cows supporting her is "low maintenance." L77 is backed by the ultra-popular Heidi cow line, made famous at Jacobson Red Angus, and both her dam and granddam are incredibly easy-fleshing, high-output cows. Her granddam was purchased through this very sale while carrying her mother, and both have become donors for us.

W2M Laura 3144 is a standout heifer with impressive mass, dimension, density, and power – setting a high standard in this year's offering. Her genetic profile and trait combination are as strong as any we're offering.

*Bred to Bieber Payday K113 (#4620475) on 6/11/24. Pasture exposed from 6/15/24 to 8/15/24 to a Hereford bull.*

Lot 35

Austin and Seth selected one of the most stunning, dark cherry-red heifers from the replacement pen with Berwald Bonne Bel 4011. This phenotypic gem combines some of Berwald's most advanced genetics with the top proven cows that form the foundation of his program. She is the first daughter to sell sired by Berwald Completely 2056, the powerful Complete son featured in Berwald's 2023 sale, purchased by Barentsen/Bullinger Red Angus for \$35,000. Completely's dam, Stony 0001, is a standout donor sired by PIE Quarterback 789 and out of the famed C-Bar Ms Stony A302 cow. The Completely calves have generated considerable buzz among breeders visiting the

ranch this summer and are also making an impact in Canada, where Bryan MacKenzie holds the Canadian semen rights. The dam, Bonne Bel 1106J, is a beautiful young outcross daughter of Angus Pathfinder sire Connealy Confidence Plus and maternally is a direct daughter of the TKP Bonne Bel 110 cow, the foundation donor at Berwald's, with over 62 direct daughters and granddaughters in the herd. Retaining the right to two ET flushes with a minimum of eight viable embryos, to be done at the buyer's convenience and the seller's expense.

Lot 36

The ND Red Select Sale has become one of the premier events in the breed, providing the Berwald family with a platform to showcase some of their most advanced, sought-after genetics. Stony 4032 is undoubtedly the stoutest heifer calf born this spring at Berwald's, and it's fitting that her full ET littermate brother, Berwald Eight Ninety 4006, has created more buzz among visitors to the ranch this spring and summer than any animal Austin has ever raised. Last year, Berwald's \$57,000 sale topper was a maternal sister to his \$110,000 high-selling bull, and it seems history could repeat itself. Stony 4032 is sired by the popular marbling leader KJL/CLZB Complete 7000E, and maternally, she descends from a powerful Bieber Hard Drive Y120 daughter

Duff Potency 2122 progeny is certainly potent, offering moderate birthweights with exceptional growth and eye appeal. Her young dam from Westphal Red Angus did a great job as a first-calver. 11M boasts deep rib capacity, tracks out well, and is a stylish heifer with a powerful hindquarter. These exciting outcross genetics bring a lot to the table in terms of depth and growth – this heifer will not disappoint.

One of the first daughters to sell from Working Class 231K, and she embodies the look we hoped he would pass down. She's long-bodied, extended through her front third, with a beautifully shaped Angus skull. Her dam has been a reliable cow for us and will turn 11 this spring. Ms Birdie 447M's pedigree traces back nine generations of Dahlke cows to our foundation cow, LMG Sara 121,

and includes many maternal legends like BJR Make My Day, MLK CRK Cub, and BUF CRK Hobo 1961 (multiple times). A leading donor for us now, 23F, is a maternal sister to 447M, and we expect her to have a bright future as well.

We have two powerhouse BB Propulsion 9096 daughters to offer this year. The first is DCCC Liberty Bell 4838, out of a Grassy Meadow cow tracing back to the Cherabel cow line from Twedt Red Angus. This heifer has been a standout since day one, with a striking dark cherry-red color, substantial bone, and impressive body mass. Plus, she has the numbers to match! 4838 is one we believe will be a big-time producer.

DCCC Monte 4858 is a tough one to let go – a beautiful Propulsion daughter from one of our favorite cow lines! The Monte cows trace back to a PIE Lakota cow, and up until now, we've kept every Monte female in the herd. 4858's dam is now headed to the donor pen, as she consistently produces outstanding calves year after year, and we know 4858 will do the same! This genetic cross

offers a nice balance of maternal and growth traits. The Propulsion calves always pack on the pounds, and the Monte cows produce some of our best females. This heifer embodies moderate, efficient, and productive genetics.

Lot 43

Young JD Kirwan is quickly learning that if he wants to run with the big boys, he has to bring his very best to town, and Ms DC Cricket 4009 definitely fits the bill. This dark red heifer has the beautiful wedge shape and sleek front end her sire is known for. Now a household name, MRLA Resource 137E is making his mark through outstanding, productive daughters with exceptional

Jumpstart first gained attention as the top seller in Bieber's 2023 sale and is now one of the top semen sellers at Select Sires. The dam, Millie K212, is a first-calf daughter of the highly proven Bieber Spartacus A193.

Lot 45

This heifer is the epitome of our program, built on a maternal foundation that combines looks with strong data. She's a maternal sister to our bred heifer consignment and represents a powerhouse female with extra substance and rib shape. Her storied dam, 412B, has been an incredible producer for us, with excellent udder and foot quality. Some of her top sons have sold for \$13,500

to Gill Red Angus, \$13,000 to Prairie Red Angus, and \$10,000 to Twedt Red Angus, to name a few. M9's full brothers will be a highlight in this year's sale. Proven, consistent genetics on both sides!

**Lot 46**

A golden opportunity to invest in a cornerstone type of female, one with the aptitude to build a cow family and program around. This direct daughter out of the \$185,000 Bieber Jumpstart resembles a lot of her sire's attributes that demanded the Red Angus breeds attention in 2022. The quality is matched on the maternal side of the pedigree as well, where you will find the progressive, WEBR Jamie J152 donor, she is a daughter of the legendary Brando, and is one that carry's herself with indisputable presence, and hits the books with an exceptional EPD profile. This dark cherry red daughter of Jumpstart grabs your attention with the sheer mass she is built with, and it begins with a correct foundation, being built with a giant set of feet that hit the ground square, with authority and stability. She is explosive in terms of the muscle she carries down her top, bold in the design of her pin set, robust in her rib cage shape

and soggy about her underline. With all this power, she is still able to remain smooth in her silhouette, being neat about her shoulder, neck, and head assembly. We consider 4305's combination of elite phenotype and genomics place her in a position to elevate even the most prestigious herds across America. We believe this donor prospect has the potential to help shine the spotlight on a program. All things considered, we trust that this mating has untapped potential as her maternal brother commanded \$15,500 at the 2024 BHSS in Rapid City. A bull that follows the type and kind his maternal sister presents. The guess work is done when considering the rising star out of the J152 donor. We would love to discuss the future of PGC MS JAMIE LYNN 4305 and how she could fit your production goals. Retaining embryo interest.

**Lot 47**

Lipton PVF Fayette 238M, an ET heifer out of our standout cow, PIE Fayette 1215, is a true breeding prospect built for success. Sired by the sought-after KJL/CLZB Complete 7000E, whose semen recently brought \$2,200 per unit, 238M combines elite genetics with exceptional structure and style. Easy-fleshing, square-hipped, and excellent-footed, she stands out with natural depth and a balanced, correct build. With nine EPDs in the top 25% of the breed, including a top 15% ProS, Fayette 238M offers productivity and profitability for any herd. Backed by proven fertility and strength, her dam, PIE

RLC Mulberry 102M is the first progeny to sell from our C-Bar Crackerjack 2037K herdsire. This deep-made, wide-based female combines an excellent set of maternal traits with the added cow power of the C-Bar Stony cow line. Be sure to find this one – she may have the makings of a great breeding piece.

years who still breeds cows at 9 years old. His daughters have raised many top-selling bulls for us. This heifer is stacked with proven genetics, reflected in her top 7% Pro S and top 10% HB indexes. Retaining the right to one flush with a minimum of seven embryos.

**Full sib to Lot 60**

4100 is a full sister to a set of flush brothers that are among the best bulls we have ever raised. Adding 4100 into the flush makes this perhaps the best flush we've ever had. Her dam, Flo Marie 7185, is one of the top Angus cows on the ranch, with a big middle and a perfect udder. You'll be hearing a lot more from her in the future. If interested in this heifer, ask for a video of her dam

— she's very impressive. We used Jumpstart heavily in 2023, and he has not disappointed. If you want to inject growth and power into a set of calves, he'll get the job done. We're excited to see where she ends up. Retaining the right to one flush with a minimum of seven embryos.

**Lot 61**

This heifer has power and performance written all over her. She's one we've had our eye on since birth, making it even harder to let her go. She's as deep-bodied and long as you can make one, while still boasting great phenotype. We're excited to see what her young dam will contribute to our herd. Her lineage traces back to the 204Z cow, who still raises an outstanding calf at

the age of 12 and is one we plan to start flushing this spring. 4009's sire is Playmaker 1080J, a bull we sold to ABS Global in our 2022 spring sale for \$33,000. This is one of the first Playmaker 1080J heifers to be offered, and we're excited about this young sire, with many calves in the lot out of him this year.

Lot 62

This heifer immediately catches your eye in the pen. Dark red with plenty of length and middle, she ties it all together on a larger frame. Her young dam is one of the best Went Yard 0700 daughters we've had to date, and her lineage goes back to the Banker bull we purchased from Broken Heart in 2012. If you know our program, you know Banker produced outstanding females for us.

Lot 63

A rare opportunity to purchase a direct daughter of the great Primrose 107W cow. We acquired 107W from Twedt Red Angus in their 2019 spring sale, and she has since produced outstanding females and herd sires, including Playmaker 1080J, now at ABS Global. We later sold her to Lucas Cutler and purchased this mating in the 2021 Red Select Sale. We're pleased to offer

Red U2 Dominion, sire to Lot 64

4046M, as we believe this may be one of the best matings to this cow to date. She wouldn't be leaving the ranch if we didn't have a few full siblings. This heifer is exceptional – deep-bodied, with good length and a feminine phenotype. We believe she will make an outstanding cow, following in her dam's footsteps.

C-T Reputation 0094 stands on huge, square feet and is athletic on the move. Above average in stature, he possesses tremendous width and power through his hip, is bold-centered, and massive. Reputation is tremendously masculine, with the look of a true stud bull, and is deep cherry red in color. He consistently passes these traits on to his offspring. Owned by Overmiller Red Angus, KS, and C-T Red Angus, MT, leased to Beef 360.

## 86 BERWALD PVF OUTRIGHT 221L

**NDJRA HEIFER GRANT**

- \$1,000 grant toward the purchase of a heifer in the ND Red Select Sale
  - NDJRAA members are eligible
  - Must be present at sale
1. Applicant must be a ND Junior Red Angus Association member to be eligible for this grant. If you are not a current member of the ND Junior Red Angus Association, you may join by enclosing your annual membership dues of \$35.00 and a completed ND Junior Red Angus Association membership form. Dues are payable to the ND Junior Red Angus Association.
  2. Age: Must be at least 8 years old and not have turned 21 years old by date of the ND Red Select Sale.
  3. Must be able to provide the remaining purchase price of the heifer immediately after the sale.
  4. Only animals purchased from the ND Red Select Sale are eligible for grant money.
  5. Embryos do not qualify for the ND Red Angus Association heifer grant.
  6. Grant money will be paid directly to Kist Livestock on behalf of the grant recipient.

**NDJRA JUNIOR INCENTIVE PROGRAM**

- Various sale credits awarded for show success for a heifer purchased at the ND Red Select Sale
  - Heifer must be transferred to NDJRAA member
  - NDJRAA members are eligible
1. Open heifer must be purchased at the ND Red Select Sale. Registered 1A or 1B heifers qualify to show. Sale credit applies to the show season immediately following the sale. Example if the heifer is purchased in the December 2024 sale, the show season would be the summer of 2025.
  2. The Junior member must register the heifer in their own junior membership with the Red Angus Association of America.
  3. Junior member must be a member of the ND Junior Red Angus Association.
  4. Junior member will receive sale credit for placing or winning in the levels listed below.
  5. Sale credit must be used at the next ND Red Select Sale. If not used that year the sale credit will be voided.
  6. To receive sale credit the junior must provide a picture (advertising quality) and a signed statement from a ND Junior Red Angus Association Advisor or ND Jr Points Association Advisor Level or from your local county Extension agent/Chapter FFA Advisor for the local County Fair Level by November 1 of current year.
