COW CAMP

Welcome

Welcome to the 2026 ND Red Select Sale! On behalf of the North Dakota Red Angus Association, I'm pleased to welcome our members, guests, and fellow cattle producers. In a changing cattle industry, practical, dependable genetics remain vital. The quality and potential represented in this year's offering make it an exciting time to be involved with Red Angus.

We're proud of the success the ND Red Select Sale has built over the years and grateful to the consignors, buyers, members, and supporters who continue to make it a valued event. Please join us December 11th and 12th in Bismarck-Mandan for a weekend of exceptional cattle, conversation, and networking.

A special thank-you to Tracey Koester and Kacey Jacobson of Cow Camp Promotions for their hard work putting this catalog together, and to Logan Hoffmann, our sale manager, for his commitment and efforts on behalf of the sale. Thank you for joining us and for your continued support of North Dakota Red Angus. I hope you enjoy the sale.

Bryan Ressler,
NDRAA President

Greetings,

On behalf of the consignors and myself, it is with great pleasure that I welcome you to the 2026 North Dakota Red Angus Association's Red Select Sale! This list of consignors has been a pleasure to work with when it came to putting together this offering, which is impressive from the beginning to end. The programs represented in this catalog are some of the nation's leading Red Angus breeders, and they are offering from the front end of their herd.

The ND Red Angus Association will have their sale at 1 p.m. CST again this year and the weekend will be presented together at Kist Livestock with the ND Simmental Association. It is a pleasure for both associations to work together and make a great weekend of the event.

This offering is packed full of industry-leading genetic packages, breed-leading cow families, and sires that need no introduction. An impressive offering again from the consignors, with rare and first time ever offered opportunities. From front to back of this catalog, it is full of exciting matings, live-lots, and rare semen.

The sale will again broadcast on DVAuction, and videos will be posted prior to the sale. Any updates can be found there, or on of the ND Red Angus website – ndredangus.org.

I would like to extend a sincere Thank You to the ND Red Angus Association for the opportunity to work with them on this sale, and to the consignors for trusting in the event. If you have any questions on the offering, please feel free to reach out, I would be happy to assist however I can. See you in Mandan on Dec 12th.

Thank you,
Logan Hoffmann

Tickets will be auctioned off at the NDRAA Annual Banquet. The first purchaser of the first ticket package auctioned off at the banquet will receive an additional 10 free tickets. The second purchaser of the second ticket package auctioned off at the banquet will receive an additional 10 free tickets. NDJRAA members present at the annual banquet will put their names in for a drawing of five free tickets. At the beginning of the auction, tickets will be auctioned off in large packages at $10 per ticket. A computer randomizer will draw a ticket and the winning ticket holder will be awarded possession of he donation heifer.

CATALOG & PROMOTION

Cow Camp Promotions 701-391-5440

For customers purchasing on DVAuction, over the phone or by proxy, NDRAA and Kist Livestock require funds be wired to Kist Livestock by Monday, Dec. 14 following the sale. Please contact Kist Livestock for wiring instructions.

Sale Information

ND JUNIOR RED ANGUS

The NDJRAA will have a work meeting at 2 p.m. on Friday, Dec. 11, in the banquet hall and a meeting Saturday, Dec. 12 at 10 a.m. in the stands at Kist Livestock. The juniors will facilitate a silent auction fundraiser during the evening's activities and up until the start of the sale on Saturday. They will also have a semen donation auction. See page 10 for more details. NDJRAA dues of $35 will be collected throughout the weekend.

NDRAA MEMBERSHIP AND ADVERTISING

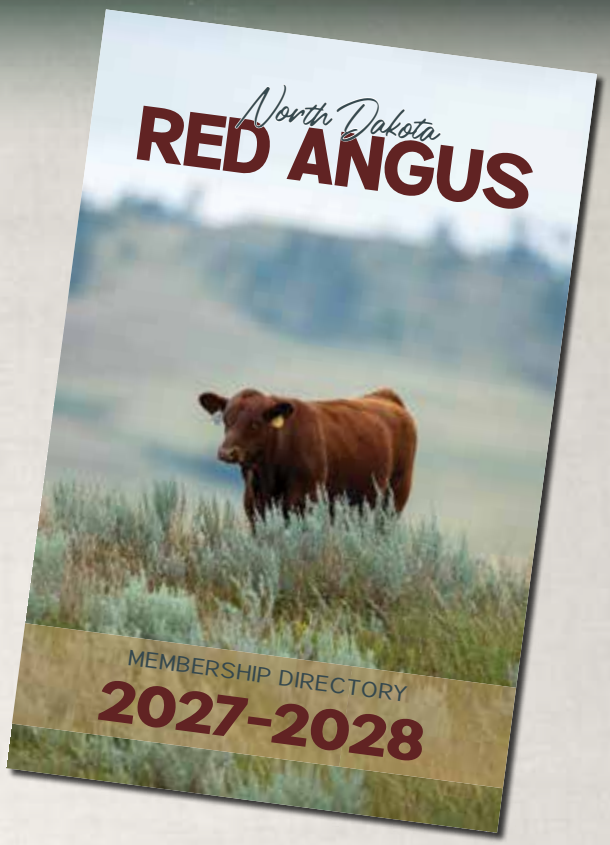

The NDRAA will be collecting annual dues of $100 during the weekend. The 2027 membership deadline is Dec. 31, 2026. NDRAA members are also able to participate in the NDRAA Pro-Rated Advertising. Details available at the meeting.

NDRAA MEMBERSHIP DIRECTORY

The 2027-2028 NDRAA Membership Directory will be available during the Red Angus weekend.

NDJRA GRANT AND INCENTIVE PROGRAM

Please see page 10 for more junior information or visit ndredangus.org for full details and applications.

Red Angus Guide to EPDS and Indexes

ProS – Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include CED, ADG, HPG, STAY, MW, DMI, CW, MARB, REA and Fat.

Index | Dollars per Head | Higher Value

HB – HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning.

HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning.

This index is a combination of CED, CEM, WW, Milk, MW, HPG and STAY.

Index | Dollars per Head | Higher Value

GM – GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feed yard performance and carcass traits.

GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. This index is a combination of ADG, CW, DMI, MARB, Fat and REA.

Index | Dollars per Head | Higher Value

CED – Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams.
Percent | Higher Value

BW – Birth Weight predicts differences in actual birth weight of progeny. **Pounds | Lower Value**

WW – Weaning Weight predicts differences in 205-day weaning weight. **Pounds | Higher Value**

YW – Yearling Weight predicts differences in 365-day yearling weight.
Pounds | Higher Value

ADG – Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. **Pounds | Higher Value**

DMI – Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period.
Pounds | Lower Value

MILK – Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. **Pounds | Higher Value**

ME – Maintenance Energy predicts the difference in maintence energy requirements. **Mcals per Month | Lower Value**

HPG – Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. **Percent | Higher Value**

CEM – Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers.
Percent | Higher Value

STAY – Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. **Percent | Higher Value**

MARB – Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib.
Marbling Score Units | Higher Value

YG – Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. **Yield Grade Units | Lower Value**

CW – Carcass Weight predicts differences in actual hot carcass weight.
Pounds | Higher Value

REA – Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. **Square Inches | Higher Value**

FAT – Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. **Inches | Lower Value**

When we were trying to plan what heifer we wanted to donate, we knew we wanted to pick something with a successful maternal background. This girl's great granddam was a bred heifer that was purchased in our first group of registered cows that started our herd. We continually keep females from this cow line as they keep producing top-end cattle for us. Thank you to everyone who helped give ideas for her new name. It was clever and fun to utilize her sire and dam's name as well as a little ode to Blake's mom who says 1980 was a great year. Thank you to everyone who purchases tickets to support the ND Red Angus Association. Hopefully you will be lucky enough to win MRRA MS 1980 CADDYSAK P609.

You see it all the time in professional sports where many of the best young talents come from parents that were at the upper echelon of the sport as well. This embryo mating combines some of the most advanced genetics you will find anywhere in the breed today. The dam, Stony 4032, was the record setting $170,000 high-selling female from the 2024 ND Red Select Sale, going to Circle F Farms in GA. This powerful Complete daughter comes from the famed Stony cow family through her Hard Drive x Spur Franchise of Garten bred dam. Her full brother, Berwald Eight Ninety 4006, was the lead bull in Berwald's 2025 sale where he sold to TJS Red Angus in MT. The sire, Lucius 4132, burst onto the scene when he topped the 2025 sale, going to Allen Brothers, AR, Nordlund Stock Farm, MN, and Twedt Red Angus, ND, for $147,500. He combines the growth, performance and carcass of his sire, Bieber Maximus E294, with the phenotype and maternal strengths of his famous dam, Berwald Abigrace 0018. Selling 3 frozen IVF embryos with a guarantee of 1 pregnancy.

This mating is like a 'Perfect Storm'... only in a good way! We feel that the donor dam and sire compliment each other in so many ways. The dam, Taffeta 94J, brings the maternal strengths and impeccable structural soundness to the table. She is the dam of the $134,000 Berwald Destiny 3138 at Red Legend Cattle in ND, as well as Berwald Taffeta 3260, the Commander daughter that topped the 2023 ND Red Select Sale, going to Kirwan Red Angus, NE, and C-Bar Ranch, KS, for $57,500. The sire, Righteous 5155, is the outcross black/red carrier bull that blew the doors off of Berwald's 2026 bull test, posting an 839 AWW, 1543 AYW, 7.59 IMF and 17.7 REA! He is sired by the exciting young Angus bull, 44 Faithful, and out of Berwald's now deceased breed impact donor, Abigrace 0018. Righteous sold this past spring to Koester Red Angus, ND, Leland Red Angus, MT, and Holton Cattle Company, TX. Selling 3 frozen IVG embryos with a guarantee of 1 pregnancy.F

Identity 0295H is a phenomenal sire that has sired several elite high dollar selling sons from coast to coast! Unique balanced EPDs ranking in top 1-35% for ProS, HB, GM, CED, BW, WW, YW, ADG, Milk, HPG, CEM, Marb, CW, REA! He is royally bred out of Night Calver and a Bourne x Premier dam of the famous Crystal cow family known for carcass and raising herd bulls! Note Identity is now deceased and very rare! Selling 4 conventional embryos stored @ Genex Billings with guarantee of 1 90-day pregnancy.

Let us help you promote your Red Angus sale!

The NDRAA publishes a comprehensive list of Red Angus production sales online at:
www.ndredangus.org

Simply fill out your sale dates and information on the membeship form,
join the pro-rated advertising campaign and the NDRAA will list your sale on its
website and Facebook, and in its ads in the the North Dakota Stockman and Red Angus Magazine.

Selling 2 packages of 4 IVF frozen embryos with a 5th one thrown at N/C in for the guarantee.

Dam of embryos is OTMC 49D. Reba 49D is a top ten female in the entire country of Canada as far as total dollars generated in terms of Revenue on direct progeny. She has produced 12 sons now into purebred herds at a $20,210 average – 5 of them being natural calves. In fact, one of them lives right here in North Dakota at Clemetson's. (Brylor OTM Franchise 149F)

We here at Brylor Ranch currently have 7 of her daughters in our herd and have 7 of her maternal sisters too!! The dam of 49D was a bigtime donor cow that had enough influence on the breed to have her own theme-based sale (The Reba Fancy Gathering) in 2023. Reba 49W is now gone on to greener pastures but Reba 49D is on her 8th natural calf and back at DRI for another round of flushing.

Herdsman is on a big-time tear lately since being the 2nd high seller at Twedt's bull sale in the spring – only behind his full ET brother named Foreman at $150,000. He is an incredibly attractive bull with huge scan data including a 203 index on IMF – UNREAL!! His sire is one of the two HOTTEST bulls in the country in Ranch Hand. But with no more semen on the market from him, natural progression suggests that Herdsman is the one that folks are looking towards to take the next step!!

Speaking of the two HOTTEST bulls in the Red Angus World right now here is a package of embryos from the other bull – Moon Pie!! His last semen to sell averaged over $5,600 ..... A STRAW! Topping out at $5,900 in a sale last January in OKC. His progeny hold the current Canadian all-time high selling records at $235,000 for a heifer calf in the Opportunity Knocks sale last fall and a son this spring at $320,000. These are two of the very best matings that we have ever offered in our 64-year history of raising this wonderful breed of cattle. This is a rock-solid foundation to step up on.

BJR Della 101J is the only Relentless daughter of the famed TBJR Della 502 that was the pick of the BJR donors selling to Leachman/RA Brown/Schuster/Mathews and later to Pieper/JLMorris and now has 200+ progeny to her credit including the $120,000 LSF BJR High Voltage 1803J and $130,000 LSF JLM Leverage 3865L. Della 101J's own impressive resume includes a $15,000 flush to John Bell/Stan Griffis, $38,000 Pick of BJR Open Heifers (BJR Della 503N) to Veto Valley, #1 indexing heifer in BJR Herd in 2023 (BJR Della 319L) who did the same in the 2025 fall (BJR Della 560N), numerous next generation donors at Boot Jack and is now owned in partnership with On The Mark Cattle Co. Selling a conventional package of 4 frozen # 1 embryos from the mating of Della 101J and STRA Herdsman 5011 stored at Genex, Billing's, MT. (Guarantee of 1 90 day pregnancy if implanted by a certified tech). Sire is the $40,000-second-high seller at Twedt's 2026 bull sale. He is completely blowing the field away with his amazingly attractive phenotype and off the wall huge scan data of 6.55 IMF score to ratio an astounding 203!! Herdsman could be THEE ONE to replace his wildly popular sire in Ranch Hand 2010. This is one truly breed changing and timeless mating that could bring your program to light – or to keep it there! Only in a sale with the reputation that the North Dakota Red Select has created for itself is this first package of embryos being offered.

NORTH DAKOTA JUNIOR RED ANGUS ASSOCIATION

Junior Opportunities

NDJRAA Heifer Grant

- $1,000 grant toward the purchase of a heifer in the ND Red Select Sale
- NDJRAA members are eligible
- Must be present at sale

1. Applicant must be a ND Junior Red Angus Association member to be eligible for this grant. If you are not a current member of the ND Junior Red Angus Association, you may join by enclosing your annual membership dues of $35 and a completed ND Junior Red Angus Association membership form. Dues are payable to the ND Junior Red Angus Association.

2. Age: Must be at least 8 years old and not have turned 21 years old by date of the ND Red Select Sale.

3. Must be able to provide the remaining purchase price of the heifer immediately after the sale.

4. Only animals purchased from the ND Red Select Sale are eligible for grant money.

5. Embryos do not qualify for the ND Red Angus Association heifer grant.

6. Grant money will be paid directly to Kist Livestock on behalf of the grant recipient.

NDJRAA Junior Incentive program

- Various sale credits awarded for show success for a heifer purchased at the ND Red Select Sale
- Heifer must be transferred to NDJRAA member
- NDJRAA members are eligible

1. Open heifer must be purchased at the ND Red Select Sale. Registered 1A or 1B heifers qualify to show. Sale credit applies to the show season immediately following the sale. Example if the heifer is purchased in the December 2026 sale, the show season would be the summer of 2027.

2. The Junior member must register the heifer in their own junior membership with the Red Angus Association of America.

3. Junior member must be a member of the ND Junior Red Angus Association.

4. Junior member will receive sale credit for placing or winning in the levels listed below.

5. Sale credit must be used at the next ND Red Select Sale. If not used that year the sale credit will be voided.

6. To receive sale credit the junior must provide a picture (advertising quality) and a signed statement from a ND Junior Red Angus Association Advisor or ND Jr Points Association Advisor Level or from your local county Extension agent/Chapter FFA Advisor for the local County Fair Level by November 1 of current year.

Here comes an exciting embryo package from the Gorder's. It is nice to see such refreshing genetics from this young Red Angus program. The dam, Bonne Bel 4026, was a featured open heifer in Berwald's '25 sale. Just check out the great matrons this young donor stacks in her pedigree. They include 507C, Stony A302, Tilly 399W and Bonne Bel 110... WOW! The sire, Destiny 3138, burst onto the Red Angus scene when he topped Berwald's '24 spring sale, going to Red Legend Cattle in ND for $135,000. Now a proven young sire with over 300 head of progeny, it looks like his legacy will be in good hands through his amazing, dark red, deep bodied daughters that are renowned for their sound structure and amazing feet. If you don't have it yet, you're going to want Destiny in your herd! Selling 3 embryos with a guarantee of 1 pregnancy.

The Gorder Family are newcomers on the Red Angus scene, and they have decided to make a big splash at their first Red Select Sale with some big-time embryo packages! The dam, Bonne Bel 3111, was their pick of the heifers in Berwald's '24 spring offering. Posting an impressive yearling record of 645 AWW and 1111 AYW, she is sired by the popular 'female maker', PIE Captain 057, and maternally she comes from a powerful PIE One of a Kind daughter from the famed Bonne Bel 110 cow that helped build the foundation of the Berwald herd. The sire, Unrestricted 5005, was a highlight in Berwald's bull sale this spring, going to Cockburn Red Angus and Triple SSS Red Angus in Canada for $90,000. Not currently on the market, he offers genetics that combine the Abigrace and Stony cow families through his sire, Outright, and his dam. Stony 2094. His full sister was the star of the '25 ND Red Select Sale where she topped the event to Kruze & Bailey Robinson in ND for $100,000. Selling 3 embryos with a guarantee of 1 pregnancy.

142B is the grandam of Berwald Destiny, the high-selling bull in the 2024 Berwald Sale, Lot 1, selling for $135,000. Berwald Taffeta 3260 topped the 2023 ND Red Select Sale for $57,500. Kirwan Red Angus sold a granddaughter for $40,000 in 2025 Select Sale. Six Mile Ms Taffeta 142B was possibly the most-influential donor cow at Six Mile before my partners and I purchased her in 2023. Selling 4 IVF embryos with a guarantee of one pregnancy.

Genetic Opportunity

Kirwan Red Angus and Roy Kaderly with K5 Cattle from Fairgrove, Missouri are excited to offer two Elite IVF Embryo Packages — A proven donor, two exciting outcross sires and unlimited genetic potential! We are extremely excited to offer two elite IVF embryo packages from one of the newest additions to the Kirwan Red Angus and K5 Cattle Company donor battery, NIO MS JOLINE Z243 8101! Purchased from Sandridge Land & Cattle, Joline has already established herself as one of the most influential and profitable females in their program. With 57 progeny on record, zero culls, and over $400,000 in progeny revenue, she has proven her ability to consistently generate the kind that move a breeding program forward. Now we are offering the opportunity to get in on the ground floor of two exciting matings!

These aren't just embryos out of another donor cow. They represent the opportunity to invest in a female who has already proven she can generate elite cattle and substantial returns, combined with two of the most exciting genetic opportunities we have pursued. Two packages. Three IVF embryos per package. One proven, powerhouse. #RUNREDS

Here is an opportunity that really gets us excited! HRP Sherman 5105N was the $80,000 sensation of the HanSine Ranch Spring 2026 Sale, purchased by Twedt Red Angus. Backed by the legendary $400,000 PIE Hollywood 222, Sherman brings together tremendous power, performance, structural integrity, and an exciting outcross pedigree. With influential Black Angus genetics on both sides of his pedigree and five traits and indexes ranking in the top 1% of the breed, Sherman offers an impressive combination of genetic merit and phenotype. We believe crossing a bull of this caliber with a donor as proven and productive as Joline could produce something truly special!

1521C is the dam of the standout $47,000 Smoky Y Absolute K94 Bull that Berwald Red Angus and TJS Red Angus purchased in '23. Her '25 daughter was selected as the pick of the open heifers in the Smoky Y 2026 production sale. The Absolute bulls that highlighted the TJS sale this past spring, as the first seven lots, averaged a whopping $16,200. An Absolute daughter from Berwald Red Angus fetched $43,000 on this sale last year as an open heifer selling to Koester Red Angus and Leland Red Angus. As an 11-year-old cow, she has earned an outstanding 107 MPPA while maintaining a 358-day calving interval. She is a dark cherry red, gorgeous female that is hard to fault structurally. She sports dark black, square feet and a beautifully constructed, tidy bag with ideal teat size. We feel this mating to Pie Quarterback 789 could produce some of her most powerful progeny yet! Look for her progeny to highlight our future Oland Red Angus Bull Sales. Selling 5 IVF grade #1 embryos with a 6th included as the guarantee. Stored at BovaGen Embryo Transfer in Britton, SD.

A tremendous opportunity to access one of the most powerful young females in the PVF program. Lipton PVF Bonnebell 327N is a standout Confidence Plus daughter with exceptional width, depth, rib shape, and a true brood-cow build. She combines natural capacity and functional design with the stoutness and presence to stand out. Her maternal backing traces through a powerful PIE Commander daughter to the legendary TKP Bonnebell 110 and influential C-Bar Abigrace 636D — cow families known for fertility, longevity, and producing cattle that rise to the top. John Henry 5078 is a son of the renowned STRA Ranch Hand and was the $180,000 high-selling bull in the 2026 Flatwater Gang Bull Sale. His semen has been kept limited and exclusive, giving the purchaser an opportunity to get on the leading edge of these genetics. The projected mating EPDs rank in the top percentiles of the breed for several traits. This high-power mating is designed to produce cattle with genuine body, thickness, structural integrity, and the phenotype to turn heads. Buy three frozen embryos and receive the fourth embryo as a guarantee.

Cutting-edge Angus genetics meet a tried-and-true Red Angus cow family in this exciting mating. TKP Tilly 928, a direct daughter of the legendary Bieber Tilly 399W, is a cornerstone donor for PVF Red Angus. Her progeny were sale toppers in PVF's first inaugural production sale, and she stamps body depth, rib shape, stoutness, and maternal presence. Pollard Hennessey 3920 is one of the most talked-about young Angus sires. Two-thirds interest in Hennessey sold for $265,000, and his first calves have created demand in programs nationwide. This mating combines the maternal power of 928 with Hennessey's blend of phenotype, maternal traits, carcass merit, and performance. A forward-thinking mating with the phenotype, maternal backing, and upside to produce the kind of elite females and herd sires that can build a program for years to come. Buy three (3) frozen embryos and receive the fourth embryo as a guarantee.

These embryos trace straight back to one of the hottest sires in the breed, Ranch Hand 2010, and one of the most highly sought-after females in the business, Six Mile Kassie 535F. A dark cherry-red powerhouse with the kind of mass, muscle, volume, and maternal credentials that are hard to come by. Kassie is the proven powerhouse behind NIO Mojave, the $217,500 phenom! This is an opportunity to capitalize on a cow family that has already made a tremendous impact and combine it with one of the most exciting genetic packages in the breed. When you can tie into a cow like Kassie 535F, you're not just buying embryos, you're buying into a legacy! Offering a package of 3 embryos with a one pregnancy guarantee!

NIO MS JOLINE Z243 8101 – A PROVEN MATERNAL POWERHOUSE! Kirwan Red Angus and K5 Cattle Company are extremely excited to have acquired this tremendous donor female from Sandridge Land and Cattle. We couldn't be happier to have her as part of our programs, and we believe the opportunities that lie ahead with this female are endless! When you talk about proven, income-generating donor cows, NIO Ms Joline 8101 belongs at the top of the conversation! Arguably the most influential donor in the Sandridge program, she has generated over $400,000 in progeny sales, with 57 progeny on record and ZERO culls. Averaging over 11 embryos per flush, she has proven her ability to produce both quality and quantity at an elite level. Her production record speaks for itself, with 11 sons featured in Sandridge's 2023 bull sale alone and high-selling progeny continuing to surface year after year. Her daughters are now making their own mark as the next generation of elite females, including one that produced a $16,000 heifer this past fall. Phenotypically, she combines tremendous depth of body, structural soundness, and femininity with an outstanding genomic profile ranking in the top 5% GM, 7% Milk, 6% Marbling, and 2% REA. We are offering a flush on this remarkable female, giving you the opportunity to tap into one of the most proven and profitable cow families in the Red Angus breed. Females with this kind of production history, genetic merit, and consistency don't come along every day. We are incredibly excited about her future at K5 Cattle Company and Kirwan Red Angus, and even more excited to offer someone the opportunity to be part of it! Selling an IVF flush that can take place any time after the 1st of the year. Minimum 8 embryos and every other after 10! Flush will take place at Larsen Embryo Transfer (Trans Ova) Valentine, Nebraska. Proven production. Elite genetics. Unlimited potential.

We did it again! We decided to load up a Hilton female for this great sale. 647P is a daughter of our 82G Donor that we think so highly of and sired by Berwald Destiny, a bull we were awfully impressed with when we saw him this spring at Northland Sires. Having other sisters at home and over fifteen pregnancies coming next spring from this donor makes it a little easier to watch this one leave. We sold the 232K Hilton daughter whose mother is a flushmate sister to 82G on this very sale a few years back to Namken and her second calf sold this spring for $41,000. A maternal sister to this lot raised our second high-selling bull this spring for $27,000 to Westphal in Montana. There is a ton of consistency in this Hilton cow family producing both top selling bulls and donor quality females. We would like to retain two future successful IVF flushes.

DKFE 12P has been a dark red stand out from birth. First female to be sold out of sire DKF 63M. His progeny are very consistent, females are very feminine and the bulls are masculine with lots of volume like 12P. DKFE 12P is built right from the ground up, with excellent feet, and legs. Four perfectly placed teats, and a beautiful front end, that leads into a big ribbed, deep, wide topped female. She is a sweetheart of a female that has the look of a show heifer, that will be a working hard mother. She comes from very consistent bloodlines in our herd. Grandmother DKF 113F has produced high-end females and bulls that have fetched top dollar. Lots of outcross genetics in her pedigree. We use top-end old black Angus proven genetics to build new Red Angus bloodlines. Here is your opportunity to own a great one!!

DCCC Patty 6061 comes from one of our strongest cow lines, whose females consistently rank among the best in our herd for udder and foot quality. Her granddam, Carlson Patty 502, has earned a place in the donor pen. We also sold a Patty female to Wasem's at the 2023 Red Select Sale. 6061's dam is moderate-framed, easy-fleshing, and has a perfect udder. She flat out worked this summer with this Guapo heifer at her side. The mating to WSM Guapo 4048M worked well, adding frame, growth, and carcass traits that give this female strong genetic potential. It's hard to let the good ones go, but we look forward to seeing this female excel in someone else's program.

Another Patty daughter, DCCC Patty 6048 – she is a direct daughter of our donor, Carlson Patty 502, who boasts an MPPA of 105. She's first female we will offer out of our newest AI sire, Red Mar Mac DM Landmark 10k, a son out of Red Mar Mac Lincoln 106H. We had a hard time picking our females for sales this fall because we didn't want to get rid of more than one Landmark daughter, but we kept finding all our favorite females were sired by him. The 6048 heifer was our favorite out of all of them. She's a big broody female with tons of rib shape, pin width, and carries plenty shape and dimension in her rear third. She's the type of female you wish you had a 100 of at home. We know this heifer has a bright future ahead of her!

HRR Starlight 630 is a STRA Ranch Hand 2010 granddaughter and a daughter of the top selling bull, Ridge End Game 4521 in Flat River Gang's 2025 sale. 630 was a standout on pasture during a summer tour as were her sisters out of the Ridge End Game 4521 bull. Her maternal grandsire was a rock-solid sire of functional good footed and sound uddered daughters used across several herds. On top of her foundational strength, you will be pleased to see that she fills her profile with correctness, strength of topline, uniform depth, boldness of rib and clean front with a desirable feminine head. If she does not make a show prospect, she will continue to wow observers as a cow in your pasture. On paper she has the performance and EPDs to make a significant contribution of genetic value to her offspring.

Open Heifers

Selling choice of these two great females.

142B is the grandam of Berwald Destiny, the high-selling bull in the 2024 Berwald Sale, Lot 1, selling for $135,000. Berwald Taffeta 3260 topped the 2023 ND Red Select Sale for $57,500. Kirwan Red Angus sold a granddaughter for $40,000 in 2025 Select Sale. Six Mile Ms Taffeta 142B was possibly the most-influential donor cow at Six Mile before my partners and I purchased her in 2023.

What a female. What an opportunity. And what a pedigree! Kirwan Stony 6003 is an absolute standout daughter of Feddes Eastwood 3284, and when you study the cow power behind her, it only gets more exciting! Her dam, the great C-Bar Stony 837F, anchors back to one of the most influential cow families in the Red Angus breed. Stony 837F is also the granddam of the phenomenal heifer that Berwald Red Angus sold for $170,000 at this very sale just two short years ago! Stony 837F needs no introduction. Her influence and production speak for themselves! Dark cherry red, loaded with eye appeal, power, and maternal excellence – exactly how we like them at Kirwan Red Angus! We have brought some awfully good females to the Red Select Sale over the years, but I truly believe Kirwan Stony 6003 is the BEST OF THE BEST we have ever offered here! Our confidence in this female runs deep. So deep that Kirwan Red Angus will be retaining one IVF flush with a minimum of 6 viable embryos. We believe in her future and the genetic impact she is capable of making.

The Lapp family has held nothing back, sending two of their top ET heifers to this prestigious event. 160P is the first of a pair of maternal sisters out of Berwald Bonne Bel 1188, the powerful One of a Kind daughter that Lapp's purchased in this event back in '21. She is now a proven donor with over 35 head of progeny to her credit, including Lipton Bonne Bel 219L, the young donor at Pleasant View Farms that is the dam to their Lot 30. Bonne Bel 160P is sired by Berwald Completely 2056, the highly proven herdsire at Barenthsen/Bullinger Red Angus that is a son of Complete out of the famed Stony 0001 donor at Berwald's. A pair of full brothers to 160P sold this spring at Berwald's, one going to Wagonhound Ranches in WY, and another to Shamrock Nook Red Angus in WI.

Bonne Bel 830P is a super long, smooth made female with a beautiful dark red color. She is one of two ET heifers that Lapp's have brought to town out of their top donor, Berwald Bonne Bel 1188, and she too graced the pages of this breed leading event back in '21. 1188's progeny include the dam of Pleasant View Farm's '26 ND Red Select open heifer, Lot 30, as well as the Bonne Bel 3128 donor at Berwald's that produced their $85,000 high selling heifer this spring and is the dam of one of the most exciting young bull calves they have ever raised... a red son of PIE Craftsman! Bonne Bel 830P's sire, PIE Hollywood 222, needs no introductions. He is the $400,000 record high selling bull in the breed, and his progeny have been following suit. He brings the great Abigrace cow family to the table, and this combination with the Bonne Bel's has been a good one!

Here is another chance to own a CK Thor SX 2071 daughter! The high selling bull from the Klompien Red Angus/CK Red Angus production sale in 2023 sure stamps his progeny with that dark red color, excellent feet, great udders, and a docile disposition. Daughters have sold extremely well at the Prestigious Nile Red Angus Sale and the ND Red Select Sale. Ms Trudy P663 represents the best of them. She has a very balanced set of EPDs and phenotypically she puts it together well. We purchased her dam from this sale in 2020 from DK Red Angus and she has been very productive in our herd. She has been a donor cow for us and still raises her natural calf every year right on schedule. P663's maternal sister sold last year in this sale to Truman Red Angus. This girl will be very productive wherever she goes.

If you believe in proven pedigrees take a look here. Ms Decora P668 has a bottom side that is quite impressive. She is backed by great cow families such as Lassie and Colleen as well as Bieber Primrose 107W and Bieber Laura 158W who have almost 300 combined registered progeny. The bottom side is also stacked with great sires like Bieber Hard Drive Y120, C-Bar Evolution 107Y, and WEBR Doc Holiday 2N. Her 9-year-old great granddam has the best feet and udders on our place and earned her place in the donor pen last spring. Sired by the $100,000 PIE Cadillac 3289 this heifer has the potential to create some outstanding offspring. P668 herself is incredibly clean-fronted, shallow chested, and has good neck extension that transitions well into her shoulder. This heifer could be competitive in the show ring and then head out to the pasture, and you will reap the benefits of her proven pedigree.

TKP BONNE BEL 110

An absolutely stunning female with a beautifully feminine, wedge-made design, combining tremendous length of body, spring of rib and overall dimension, all complemented by her rich red color and undeniable presence! 414P is a daughter of the now-deceased LSF Identity 0295H, whose semen has become extremely scarce, making females of this caliber increasingly difficult to replicate. Maternally, she is equally impressive, out of Lipton Bonnebell 219L, a powerful PIE Commander daughter and rising young donor in the PVF program. Her maternal lineage traces back to the legendary TKP Bonnebell 110, dam of PIE Cinch, while her granddam, the prolific Bonne Bel 1188, was featured in this very sale several years ago and also produced the dam of Berwald's $85,000 high-selling heifer in their 2026 spring sale! She is every bit as impressive genomically as she is phenotypically, with several EPDs ranking in the top percentiles of the breed. We believe this female has all the pieces to become a truly influential donor, and we're excited to see the impact she can make in her new program! PVF Red Angus retains the right to one flush at the buyer's convenience, with a minimum of six viable embryos.

Quite possibly one of the finest females we have ever raised, and certainly one of the toughest to part with! 435P is an exceptional daughter of Maximus E294, combining tremendous power, body dimension, structural correctness and the kind of eye appeal that is difficult to replicate. You would be hard-pressed to find a more complete Maximus daughter! Maternally, she is equally impressive, out of a young Quarterback daughter quickly earning her place in the PVF donor pen. Her granddam needs no introduction, PIE Goldrib 8000, the sale-topping bred heifer at Pieper Red Angus in 2018. This female is as dimensional as you can make one, combining tremendous length, spring of rib, structural integrity and the presence of a future cornerstone donor. She is every bit as impressive genomically as she is phenotypically, with several EPDs ranking in the top percentiles of the breed. If you're looking for a female capable of making a big-time impact on your program, we have as much confidence in this one as any we have ever offered! PVF Red Angus retains the right to one flush at the buyer's convenience, with a minimum of six viable embryos.

RREDS Lakota P698 is a powerful made female she has as much heart girth as you could ask in a female with an abundant amount of body. She's very long spined – it's almost deceiving the amount of body she carries. The Reliable sire group in general have as much length you can ask for. Her young dam is bred back AI and her granddam lived until she was 15 and great granddam was around until the age of 17. The granddam has left a lasting impact. She has many daughters working in the herd and many sons that consistently topped our sales. They have gone on to do really well for customers. Don't miss out on this heifer as she will be one of the only Reliables ever to sell as semen very limited. The Reliable heifers are the front pasture kind many people have picked them out – extra long and soggy. Note the picture of this heifer is just out with her dam. No fancy clip. Job just a real world heifer.

RUSCH REBA 024

A truly complete MOJO daughter that has all the pieces to become a front-pasture brood cow! MOJO, the high-selling bull from Lemke Cattle, has certainly left his mark here. This female combines an attractive look, tremendous body capacity, and the kind of overall completeness that is hard to find. She has the maternal potential, presence, and kind of cow power to be a cornerstone in any program.

Cherabel 6128 is a super dark cherry red heifer. She is feminine and deep ribbed and will certainly catch your eye. She is one of the first heifers to sell out of the $41,000 dollar WEBR Wrangler. The Wrangler calves are rising to the top in the bull pen and the replacement pen. We are super excited about the Wrangler calves and we feel 6128 highlights them well. She stems from an absolutely beautiful Blue Collar Dam from the Cherabel cow family who are some of the top cows in our program. Cherabel 183 has jet black hooves and is headed to the donor pen this spring as she continues to bring one to the top every year and has stuck AI every year. You don't want to overlook this heifer. Retaining the right to one flush of 7 embryos.

Cherabel 6018 is super long bodied, feminine and is very attractive in her design. She is a direct daughter of Cherabel 305 who is the dam of STRA Relentless. 305 now has added many daughters to our program who continue to rise to the top. We are currently flushing 2 of them. 305 stamps her daughters with perfect udders and excellent feet. She is sired by the $185,000 Bieber Jumpstart who needs no introduction. We calved his first daughters this last spring and we were very impressed. Beautiful udders, good feet and they raised calves that were right at the top. Buy with confidence here. This pedigree is predictable and proven. Take the guess work out of it. She will work. Retaining the right to one flush of a minimum of 7 embryos.

57N is one we are especially excited to offer at the ND Red Select Sale. As always, we strive to bring our very best to this sale, and this female is no exception! She comes from our foundation donor, TRCC LACY 134F, who continues to hit it out of the park, and 57N is another example of the consistency and quality this great cow family produces. She is a full sibling to TRCC NEW HORIZON 64N, who sold this spring for $18,000 to Cross Diamond Cattle Co., NE. This female is super dark cherry red, stout-made, and carries the kind of presence and power we strive to produce in our program. 57N sells bred to our new black, red-carrier herd sire purchased from Kirwan Red Angus. He is a son of Spring Cove Grant and out of the great C-Bar ABIGRACE 636D donor. Retaining the right to one successful flush, with a guarantee of six embryos.

Pasture exposed to C-KIRWAN GRANT 5215 (#5193871). Confirmed for a 3/15/27 calf.

Here's a bred heifer we are extremely excited about offering! This Bieber Jumpstart daughter is the kind that will turn heads the moment you see her. Super deep-bodied, easy-fleshing, and backed by an outstanding cow family, she combines the kind of phenotype and maternal strength that make her truly special. Her pedigree brings together the proven Bieber Atomic influence, the legendary Rebalas cow family tracing back to the great Glacier program, and the influence of Leachman Grand Canyon, one of the great cow makers in the breed. With this much proven maternal power stacked in her pedigree, she has all the pieces to become a highly productive female and a valuable addition to any breeding program. She sells bred to PIE INTENSITY 295 which is exciting mating! Retaining the right to one flush of six embryos.

Bred to PIE INTENSITY 295 (#4702447) on 5/5/26. Confirmed due 2/10/27 with an AI calf.

5051 is an absolutely beautiful bred heifer. She is one stout, powerful heifer. This heifer combines some of the top cows in our program such as, Tina 662, Rainbow 417c, Primrose 107w and Cherabel 305 and Rainbow 133. All of these cows have had a huge impact on our program and helped shape who Twedt Red Angus is today. She is one of the first Sargent heifers we have sold. Sargent was the high selling bull to Select Sires in 2023. We are very excited about the future of the Sargents. To top it all off, she is a daughter of Rainbow 133. A top Relentless daughter out of Rainbow 417c. Her first son, STRA Security 3013, sold to Bieber Red Angus in 2024. Last but certainly not least, she sells AI bred to STRA Ranch Hand 2010 who needs no introduction. Ranch Hand continues to be one of the most sought-after sires in the breed. Heifers like this are only offered from our program at the North Dakota Red Select sale. Retaining the right to one flush of a minimum of 7 embryos.

Bred to STRA RANCH HAND 2010 (#4663391) on 5/18/26. Confirmed for a 2/23/27 calf.

This heifer is stacked with great cows, from Madona 30H to Minerva Y12 and her dam is an absolute beauty!! Dark cherry red, perfect dark foot, perfect udder!! And has the brood cow look. The kind that are front pasture cows and the most productive ones as well, hardworking and good looking. Every heifer out of her sire is a looker too!! Unfortunately, the great ones seem to die way to soon and we lost him after his first breeding season. This is the only crop of heifers out of him. He was gorgeous!! His pasture name was "Big Sexy" he was dark cherry red, long bodied with a big rib and a true Angus head with a big thick hind end that stood on a perfect black foot!! You couldn't dream one up to look any better than he did!! We only have a few daughters so this is a BIG DEAL letting this one go, especially being out of this cow!!! But Logan said bring me your best, so here she is!!

Bred to RED LWNBRG MCLOVIN 61M (#5211919) on 5/15/26. Pasture exposed from 5-15-26 to 8-6-26 to RED LWNBRG MCLOVIN 61M / VRRA N245 Diamond (#5211919 / 5195725).

This heifer will catch your eye. A beautiful, complete heifer in every way – straight top line, good hip, nice Angus head, great feet, and her dam has a perfect udder!! She goes back to the U2 Reckoning 149a on the top side and one of our top cows. On the bottom side she goes back to one of the best female making machines that I personally raised, the "Whiskey" bull. And to top that off, her granddam is a cow that we bought out of the ND RED SELECT sale from the great Rick Rohrich himself from CER. This heifer is stacked top and bottom with great females with perfect udders and great dispositions, and she is a looker that will make a great cow to build a herd or add to anyone's herd just like her granddam did for us!

Bred to RED LWNBRG MCLOVIN 61M (#5211919) on 5/8/26. Pasture exposed from 5/11/26 to 8/6/26 to RED LWNBRG MCLOVIN 61M / VRRA N245 DIAMOND (#5211919 / 5195725).

Support the North Dakota Junior Red Angus Association!

The following semen packages have been donated for auction to raise funds for the North Dakota Junior Red Angus Association.

IVF EMBYRO PACKAGE: SSS Moon Pie 680K × CER Ms Red Bird 0024. CER Ms Red Bird 0024 has earned her place in our donor pen. She produced CER Final Draft 3005, who brought $22,000, and her mating to SSS Moon Pie 680K is where things get explosive. CER Moon Pie 4010, a full sibling to the embryos selling, brought $27,000. And across six full siblings to these embryos, the average was just over $24,000. That kind of consistency is what gets us excited about offering this mating. With SSS Moon Pie 680K semen in extremely limited supply and having sold for as high as $5,800 a straw here's your chance to get in on an already proven mating.

Troubadour is a bull that presents opportunities for the Red Angus breed unlike what we have seen before. He was the lead-off bull in our 2025 National Champion Pen of Three Bulls at Cattlemen's Congress and has commanded attention from the moment he was born. His proud, muscular, cocky presence combined with a dark cherry-red hide is simply unmatched. The power he carries through his hip, the shape across his top, and the width of his skull and muzzle all come together in a remarkably balanced and impressive individual. With great excitement, we can report that his first calves are standouts, already displaying his signature muscle shape, proud look, and dark red color. Contact Tony Tolar 405-612-5111.

STRA RELENTLESS

An all-around rancher's bull! A son of Syringa 71A, this Reputation 0094 son is dark red, muscular, masculine, and stretchy with really good black feet. His combination of traits is exceptional and his curve-bending performance is next level! Low birth, high growth, high marbling, high milk, with an abundance of calving ease! His sire has proven to sire intense gain with weaning and yearling performance along with exceptional calving ease that's inherited and problem free. 4249's first progeny I couldn't be more happy with, they came easy with lots of shape and style. Here is your opportunity to inject added growth, stretch, and performance into your next calf crop! Stored at World West Sire Service.

NIO THROWIN' ELBOWS 5205 made a statement this spring, commanding $40,000 as the Lot 2 feature bull in the Niobrara bull sale. Sired by the standout STRA RANCH HAND 2010 and backed by a beautiful SIX MILE JOHN WICK daughter, this young stud represents the kind of genetic opportunity that doesn't come along every day. A hard-to-find combination of genuine power, muscle, and maternal strength, THROWIN' ELBOWS possesses the credentials to become a breed-leading sire. His impressive phenotype and strong maternal foundation make him a bull with tremendous potential and an exciting future ahead. Owened by Turtle River Cattle Company and Niobrara Red Angus.

NIO SPEARFISH 5209

Spearfish is the most powerful bull the Gill's have seen in years. He is extremely deep ribbed, long and very thick. He has great eye appeal and is out of the top U-2 Ms Dynamo 35B cow at Niobrara. Spearfish sold for $50,000 this spring in Niobrara's sale. He got injured this summer and had to have 1 testicle surgically removed. Due to this, not much semen will most likely ever be released on him, If you want to add some power, this is your guy!

BERWALD DESTINY 3138

We have been extremely impressed with the calves out of Berwald Destiny 3138, and his females are proving to be next level. Destiny is stamping his calves with the same qualities that made him a standout from the beginning – exceptional foot quality, sound structure, muscle and shape, while maintaining the performance and production that cattlemen demand. His first sons have shown tremendous growth and phenotype, and his daughters are developing into the kind of functional, productive females we want to build a herd around. Destiny combines an outcross pedigree with the proven power of Brown CRSB Confidence G1410 on the top and the highly regarded Red Randbow Taffeta 94J cow family on the bottom. He was the high selling $135,000 lead off bull in the 2024 Berwald Red Angus Sale, and with 224 registered progeny, he is now getting the opportunity to prove his value through his offspring. Foot quality, fertility, performance, production and exceptional females. Destiny brings it all together. Owned by Red Legend Cattle and Berwald Red Angus. Contact Brian at 701-789-7294

WEBR Spartan 551 has an impressive roster of qualities that promote him toward being a highlight at Weber's 2026 sale! He finds himself on another dimension when it comes to his ability to inject profit rewarded pounds, ranking elite against his breed contemporaries. He is one that is striking from the side, offering a bold body shape and correct structural build, with good foot shape and angularity. Beyond the science you will see he backs up the claims with an impressive roster of traits, recording 110 WWR and YWR's, along with a monster 136 IMFR that ranked number 1 in his contemporary group of 25 bull mates. He will sire daughters that have impressive maternal instinct and always keep in good shape. Invest in not only a high performing herd bull that will sire extra dollars come marketing time, but will be the source of added maternal value and longevity of your cowherd with his daughters that you can't help but to retain. Stored at World West Sire Service.

Red Flying K Lightning 19M was purcharsed in the 2025 Flying K Red Angus production sale. He is a moderate, deep bodied, easy fleshing son of 231G and an outstanding dam. She is an impressive Red Flying K Escalade 203F daughter that easily comes to the top of the Flying K herd with her phenotype, volume, udder quality and excellent feet and leg structure. Flying K Lightning 19M was used on heifers and then went on to breed a late calving herd and still held condition. His first calf crop in 2026 has thick topped, stout calves with an impressive phenotype and foot and leg structure. He sired the top selling open female at the 2026 Montana Red Angus Association Prestigious Red Angus Sale. Limited semen will be offered. Semen stored at Heart River Genetics.

BERWALD AWESTRUCK 3071

Berwald Awestruck 3071 is the $110,000 Commander 0100 son that has exceptional foot structure, length of body and plenty of capacity and frame. Awestruck is as easy moving as they come and has proven his ability to get out and cover terrain in the pasture. His first set of progeny sold on the Lazy D Red Angus bull and female sale in February. They did not disappoint, the capacity, frame and length consistently carry through to his calves most notably making them all a rib longer. Owned by Lazy D Red Angus and Berwald Red Angus. Contact Cody Berg at 701-570-0730.

TRCC BROADWAY 75N was the lead-off bull in the 2026 Turtle River Cattle Co. Bull Sale, commanding an impressive $21,750 to Hance Red Angus in Montana. This powerhouse PIE Hollywood 222 son was one of the standout bulls to sell in 2026, combining tremendous power, depth, muscle, and an exceptional herd bull presence. Backed by an outstanding cow family and bred-in performance, Broadway represents the kind of quality and genetic value that makes him a truly special breeding piece. He was a sale highlight and a bull that left a lasting impression on everyone who had the opportunity to evaluate him.

The high-selling bull at HanSine Red Angus in 2025 for $40,000 who is a direct son of Bieber Jumpstart, the #1 leading sire for registrations this past year, and out of C-Bar Abigrace 636D, who is one of the top donor cows in the entire breed. Bieber Jumpstart's dam recently got a lot of attention as she sold in Bieber's Fall Sale. Also, this fall at Pieper's Fall Sale, they sold a maternal sister to Jump Start for $57,500 to HanSine. His calves come lighter than average and grow fast. He has an excellent EPD profile, look, and pedigree. The bulls will have the performance that you demand, and the daughters will make fantastic cows! Get in on the ground level for a couple of the hottest pedigrees out there.

Upright, as Gill Red Angus likes to call him, was sold at the Gill Red Angus spring bull sale for $52,000. He is a son of the deceased Berwald PVF Outright 221L. Outright made a huge splash across the country this spring, as sons were the high selling lots at each one of the owner's bull sales. Berwald Outright's dam is one of the most beautiful cows in the entire breed. She is as near to perfect as you can make one phenotypically. Gills Outright is a son of LMG Miss Susette 9673, who is a top donor cow at Gill Red Angus. This guy will add both power and maternal. You will like what he does.

PIE HONKY TONK 4280

76 PIE HONKY TONK 4280 #5027481

PIE Honky Tonk 4280 was our $65,000 pick of the 2025 Pieper sale! Square-made, strong-topped and ideal-footed, he combines exceptional phenotype with an elite EPD profile and the disposition of a true gentleman. His donor dam, Adelle 475C, is also the dam of Bieber CL Stockmarket E119 and is known for her exceptional udder and marbling genetics. His first calves arrived this fall, with early observations indicating he will be an easy calver. Outstanding growth, marbling and rib-eye merit complete this powerful genetic package. Look for his first sons in the Leland Red Angus offering this spring! Owned by Leland Red Angus, Koester Red Angus and Pieper Red Angus.

Here is your chance to get your hands on one of the best PIE Hollywood 222 sons to sell in 2026. Walk of Fame was the high-selling bull at the Jacobson Red Angus production sale and he is out to prove why. He stands on a powerful leg and big hoof, has added length and depth, and is packed full of muscle. He boasted the #1 AWW and AYW, the #3 IMF scan, and the #1 REA. Backed by an excellent Heidi cow family, we believe the females are going to be extremely productive and will raise top-end cattle. Owned by Missouri River Red Angus and Jacobson Red Angus
